LAUREN HALE
WEB DEVELOPER

Summary

Innovative Full-Stack Developer passionate about creating beautiful, dynamic, and responsive web sites. Well-versed in JavaScript, React, Node, Ruby, and Rails. Always looking to add to my technical tool belt by learning a new language or framework. Strong background in customer service and process improvement.

Employment

Mar 2018 to Jun 2018

General Assemby — New York, NY
Web Developer Fellow

Built fluency in full-stack web development through completing an intensive program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development.

Mar 2016 to Nov 2017

United States Air Force — Omaha, NE
Knowledge Manager

- Was responsible for interaction with external clients; assisted them in accessing resources, and provided technical support.
- Assisted in the merging of various organization's SharePoint sites; allowing for the seamless transference of large amounts of data, keeping the integrity of site design, and saving countless hours of work.
- Conducted bi-monthly classes to train new users on latest SharePoint and Air Force Portal versioning.

Jan 2015 to Mar 2016

Omaha, NE
Airborne Cryptologic Linguist

- Translated and transcribed target communications and intercepted significant signals data
- Provided real-time intelligence support to special warfare operators and deployed units.
- Analyzed and synthesized large volumes of disparate information to provide actionable intelligence.
- Prepared flight plan presentations for senior officials on impending jet training missions; ensuring the accuracy of all relevant weather, routing, bird migratory patterns and take off/landing information
